

Jeff Laidlaw believes that your questions deserve answers

As I have visited door to door, you have told me that you have tried to get answers to your questions from the Township without success. You deserve answers.

When elected to Council, I will work with other Council members to bring about changes that will address your issues in a timely fashion. Your issues are my issues.

King Township cannot rely solely on consultants. King Township residents are well educated and should be consulted as part of the process. Experts don't necessarily have the appreciation for the community that we all do.

Jeff's speeches, flyers and brochure can be found on Jeff's website. One of Jeff's speeches can even be viewed on the site. Visit www.LaidlawListens.com . Don't forget that Nobleton's library has internet access and the staff can show you how to visit the site.
