

**Jeff Laidlaw**  
**answers what he will do for YOU as Councillor,**  
**Ward 2, Nobleton / Laskay area.**

As your Councillor, some of my intentions are to:

- ✓ **work with York Region to obtain the best solution to protect our water supply.**
  - Suggest other alternatives such as discharging the effluent from the treatment plant to a large water consumer, thereby protecting the aquifer.
  - Make sure that there is enough water for future generations. Despite many water advisories, Council supported the first 400 of 698 homes without improvements to the distribution system!
- ✓ **communicate issues regularly** with all interest groups, residents and business people.
  - Work to establish a ward specific funding allocation from township revenues.
- ✓ **respect the community plans** as you understand them.
  - Involve all of you in the development process earlier, so that any proposed development reflects your input.
- ✓ **explore options for dealing with traffic concerns.**
  - Lobby the Region to reinstate the “no heavy trucks” rule for King Rd. and encourage all levels of government to consider alternative transportation.
